68%
Of fourth graders scored a **0** — up from 34% the year before.

0%
Earned full credit in **all three grades** in 2026.

2% OR LESS
Reached a 9 or 10 in any grade, any year shown here.

How to read this: the top table shows the full 2026 distribution — each row adds to 100%, and rounding means some total 99% or 101%. The two tables below pull out just the 0s and just the 10s across three years.
